

MODEL No.
EP-60S

Accepts existing **60 ton** U-type dies
Max. connector diameter : Approx. 60mm

EP-60S

EP-60S shown with carrying case

FEATURES

The EP-60S compression head was designed as a portable tool for installing compression sleeves and terminals for transmission construction and maintenance work.

It operates in any position and gives 540 kN of working force to accept commercial compression joints used for transmission construction.

SPECIFICATIONS

Ram stroke : 38.5 mm
Oil volume required : 303 cc

Force at die face : 540 kN (60 short ton) at 68.5Mpa (10,000 PSI) of oil pressure

SIZE

146 (Dia) x 450 (H) mm with Ground stand

WEIGHT

22.0 kg

ACCESSORIES

Steel carrying case, Ground stand

Option :

Die adapter for 12 ton U-type dies

REMARKS

Dies are sold separately.

* Accepts all dies used for Alcoa, 60 ton compressors

* Specify the manufacturer's die and connector numbers

* Portable and light weight

* Detachable ground stand as a standard accessory

* Large handle for easy carrying

* Single acting hydraulic pump required.
The HPE-3SA is recommended to operate the EP-60S.

* Die selection chart on page 158
